SUMMARY

Third-year Computer Engineering student specializing in Python, Django, and React, with 3 national hackathon wins and production experience building data portals. Proven track record of combining strong technical expertise with effective teamwork and problem-solving to deliver end-to-end solutions.

EDUCATION

K K Wagh Institute Of Engineering Education and Research, Nashik

2023 – 2027

Bachelor of Technology in Computer Engineering

CGPA: 8.19/10

EXPERIENCE

Insite Arc(Nashik)

Feb 2026 – Apr 2026

Web Development Intern

- Built 3+ client-facing interfaces using React.js and Next.js, improving page performance and cross-platform accessibility for multiple client projects.
- Developed a Blog Admin Panel with full CRUD functionality, streamlining content management workflows and reducing manual effort for editors.

PROJECTS

Computer Department Activity Monitoring and Placement Analytics Portal | *Full Stack Developer*

2026

- Built a full-stack web portal centralizing placement records, internship data, hackathon results, and department activities of 200+ students, replacing manual spreadsheet-based tracking and significantly reducing data retrieval time.
- **TechStack:** React.js, Tailwind CSS, Django REST Framework, MySQL, Pandas, Recharts, JWT, Vercel, Render
- **GitHub:** Frontend | Backend

VidyaAI – Your AI Teaching Ally for Every Classroom | *Backend Developer*

2025

- Developed a multilingual AI assistant for multi-grade classrooms that generates local-language lessons, worksheets, and level-based explanations to support effective and inclusive teaching.
- **TechStack:** Django REST Framework, Tesseract, React, MySQL, Tailwind CSS, Postman
- **GitHub:** github.com/bhaveshka23/VidyaAI-Backend

AnvikshAI – Adaptive Learning Platform | *Frontend Developer*

2024

- Developed an AI-powered platform that generates personalized learning roadmaps, quizzes, and resources based on user goals to support structured and efficient skill development.
- **TechStack:** React.js, Tailwind CSS, FastAPI, MongoDB, Node.js, Postman, GitHub
- **GitHub:** github.com/bhaveshka23/anvikshai-frontend

SKILLS

Languages: Python, C, C++, JavaScript, SQL, HTML, CSS

Technologies/Frameworks: React.js, Next.js, Django, Django REST Framework, Tailwind CSS, Bootstrap, MySQL, Git, GitHub

Developer Tools: VS Code, PyCharm

CERTIFICATIONS

Postman API Fundamentals Student Expert – Postman, 2025

AWS Academy Graduate - Cloud Foundations - Training Badge – AWS, 2025

Python and Django Full Stack Web Developer Bootcamp – Udemy, 2024

ACHIEVEMENTS & ACTIVITIES

Impetus and Concepts '25, PICT Pune – *Winner*

NASA International Space Apps Challenge – *2nd Runner Up*

PCU's Ideathon 2.0 2k25 – *2nd Runner Up*

Innov-Era 2025 - A National Level Hackathon – *Finalist*

PBL Mini Project Competition – *2nd Rank, 2024*

Amrutvahini Tech-Pragyan Hackathon – *Top Performer, 2024*

CSI Core Committee Member – Organized technical events, coding competitions, and drives contributing to student engagement.
